WHAT WAS DONE IN STOCKS.

Something more than a ukase is needed to rethere still is, great uncertainty about an extra session of Congress. One may be called in September, and perhaps at an earlier date if unexpected contingencies arise. It is pleasant to learn, however, what every one already knew, that the "present financial condition is the only menace to the country's welfare and prosperity and that "the things now needed are coolness and calmness in financial circles, and study and reflection among our people." There is nothing in all this to indicate a distinct financial policy on the part of the present Government. A special session of Congress in September, if I do not call it before! Our people should be informed that their representatives in Congress must soon be called upon to discuss tinancial subjects! It may be well to say that "our people" have been considering financial topics for some time, and that they have concluded that the Treasury Department requires an intelligent head rather more than it needs gold, and that "calmness" would be greater if it was not suggested officially, at one time, that Treasury notes should be paid only in silver, and at another that a fresh issue of old legal tender notes was just the one thing necessary to draw gold back to this country. It must be admitted, therefore, that the uncertainty about the financial policy of the present Administration has not been relieved.

It geems to be the general impression in Europe, and to a smaller extent only in this country that as soon as Congress is convened the Sherman Silver law will be repealed, that there will be no quibbling about it, and that there will be no agitation of other economic questions which bear upon the prosperity of the country. In consequence partly of this erroneous opinion abroad the opening was almost buoyant to-day. Early prices, however, were generally the best, and the closing was depressed, although prices only yielded rapidly in tha kate dealings. The final movement responded to higher rates for money, but they should have been welcomed by sound securities as an effectual check of gold exports. Final variations were divided and they rarely reached 1 per cent, except in industrial and special stocks.

THE DAY IN THE BOND MARKET. on the part of the present Government. A special session of Congress in September, if I do not call

THE DAY IN THE BOND MARKET. There were still no transactions in Government bonds at the Stock Exchange, and asked prices as well as bids for the gold issues were lowered about 1-2 per cent. The closing quotations were as follows:

State bonds continued to be neglected, and there were no sales of city bank stocks.

The general bond market was strong, even if it was quiet. Atchison general 4s opened higher at 81-3-4, and after sales at 81, closed unchanged at 81-1-2, while seconds, class A, advanced 1-2 per cent to 47-3-4. Philadelphia and Reading issues continued to advance and general 4s gained nearly 1 per cent at 69-1-sade, and the incomes also closed a large fraction higher. Richmond Terminal collateral trust 5s advanced 1 per cent to 26. On the other hand, Northern Facilic consol 5s opened higher at 63, and on moderate transactions fell to 61, a final loss from yesterday of 1 1-2 per cent. West shore 4s were not specially active, but they suffered the anusual loss of 1 per cent. Reference is made to our full report of bond sales. Money was dearer on both call and time. Early loans on call were at 3 per cent, but the gate was advanced gradually to 6 and exceptionally a small business was done at 7 por cent. The last loans were made at 5 per cent, which, apart from renewals, was the ruling rate.

The Clearing House statement was as follows: Exchanges, \$109,986,778; balances, \$5,211,480.

The Sub-Treasury was debtor to the Clearing House \$252,481. Its net loss on balance was \$984,072, made up by losses of \$38,950 in coin and \$945,122 in currency. The days' operations covered: keceipts, \$6,205,902; payments, \$7,193,974; resulting in a general balance of \$82,255.884, consisting of \$60,702,160 coin and \$21,553,724 currency.

The United States Treasury at Washington received to-day \$252,637 National bank notes for redemption. The Customs receipts were \$237,842; the internal revenue receipts \$270,000, and the miscellaneous receipts \$72,108.

To-day's Washington Treasury statement of cash on hand and deposits in banks compares with the figures of the last previous statement as follows:

June 5.

June 6.

Differences. State bonds continued to be neglected, and

Net gold on hand 452,481,015 499,384,311 Dec. 42,2446,704 Net legal-tenders on hand 24,352,224 26,660,560 Inc. 1,698,336 Net silver on h'd 10,399,074 10,361,975 Dec. 31,698

Net cash bal...*138,572,014 \$138,772,535 Inc. \$60,021

The foreign exchanges were decidedly easier. The market was influenced by higher rates for money here and lower discounts in London. At the moment further exports of gold before Saturday are not probable, and the amount which may be shipped then is in doubt. Following are revised quotations for actual business: Bankers' bills, \$4 86 1-2a\$4 86 3-4 and \$4 88 1-2a\$4 88 3-4 for long and short sterling respectively. French francs, 5.17 1-2 and 5.15 5-8; reichmarks, 95 and 95 1-2.

In London British consols further advanced 1-16 to 99 for money and 99 1-8 for the account. The Bank of England gained £126,000 bullion on balance. In the open market money was easier at 1 7-8 per cent for discounts and 1 3-4a2 per cent for daily balances. Bar silver was a shade higher at 37 15-16d an ounce. American railway shares opened strong and advanced sluggishly to the close. At Paris French 3 per cents were a few centimes higher at 98.42 1-2, sight exchange on London declining to 25.21 francs to the pound sterling.

Venner & Co. advertise that they make a specialty of municipal and railroad, water works, street railways and gas and electric companies' bonds, and that they are prepared to negotiate entire issues of such securities.

\$225,551 ~~ 978 193 ~~ *385.533 *405.755 *439.450 THE PHILADELPHIA AND READ-250,450 ING RAILROAD COMPANY,

NO. 227 SOUTH FOURTH ST., PHILA.

Summary of Plan of Readjustment.

The Company proposes to create an issue of Thirty-year Collateral Trust 6 per cent. Gold Bonds of the parvalue of \$30,000,000, to be secured by shares and bonds, coal and coal accounts yielding a present revenue of \$2,125,630, and after 1808, \$2,540,156. Of this \$22,000,000 will now be issued, the proceeds of which will take up all of the floating indebtedness, amounting to \$20,000,000. This issue is conditioned upon the reduction of the rentais and guarantees contracted since 1888, to the actual carnings of the properties leased and guaranteed and upon an agreement by the holders of the general mortgage bonds to sell their coupons as they mature for cash, at par, to a trustee in case the carnings are not sufficient to pay them trustee in case the carnings are not sufficient to pay their when they full due, to be made the basis of an issue of coupon trust certificates, bearing 6 per cent, interest, and redeemable so soon as the company has funds sufficient for the purpose after paying the interest on the denical Mortgace. It is also conditioned upon an agreement by

that, while the plan does not involve any increase in the principal of the indebt does of the Company, beyond toe discount on the \$22,000,000 of bonds now issued, it will effect a large saving in the annual cost of carrying the effect a large saving in the annual cost of carrying the floating debt, and that the floating indebtedness thus to be taken up consists either of claims for materials and sup-plies and interest on prior mortsages for all of which Re-ceivers' Certificates, prior in lien to the General Mortgage, might be issued, or is secured by the piedge of the shares and bonds, or coal and coal accounts and rolling stock, worth more than the amount borrowed on them, so that it is of a nature which would have to be provided for

it is of a nature which would have to be provided for under any scheme of reorganization.

As to the sale of the General Mortgage coupons, it is also explained that the Company covenants not to divert any of the carnings to any other purpose than the pay-ment of the operating expenses and prior interest charges, but remains bound to pay the coupons on the General Mortgage at maturity, in cash, if in funds to do so, and is further bound to take up the Coupon Trust Certificates and except them out of the first surplus carnings after and calcel them our the current interest on the General Mort-gage. The holders of General Mortgage Coupons will only te required to sell to prevent a default at the maturity of each coupon, and the coupons will only be kept alive till the earnings are sufficient to pay them. During the last live years the interest on the General Mortgage Honds, as well as interest upon the floating debt, was earned in full, and \$8.347,745.40 paid upon the Income Mortgage Bonds.

are all subject to the Income Mortgares, and the promise of the Reading Company is, therefore, of no value, though the connection with the Reading system is of mutual ad-

thus preserved, without change, sacrifice, or assessment. The holders of the shares and bonds can sign the agree-

with the word "Assented" at the time signatures to the agreement are taken, but the certificates will not be transferred to the Voting Trustees or General Mortgage Bonds atamped until the plan has been declared operative. The Lehigh Valley Hallroad Company has ziready agreed to make the necessary reduction in its minimum fixed rental in case the plan should be adopted. Copies of the plan and explanatory statement and of the agreements to be signed by the stockholders and bondholders can be obtained upon application at the offices of the company.

OFFICE OF THE

Philadelphia and Reading Railroad Company,

227 SOUTH FOURTH STREET, Philadelphia, May 29, 1893.

To the Holders of the General Mortgage Bonds of the Philadelphia and Reading Railroad Company

that the holders of upwards of ninety per cent, of the general mortrage honds should become parties to the said agreement, on or before the 21st day of June, 1893, or the

plan will be abunded.

Copies of the said plan and explanatory statement, and
of the proposed agreement with the general mortrage bondholders, can be obtained at the offices of the company, No. 227 South Fourth St., Philadelphia: the Farmers' Loan and Trust Company, New-York, and Dashwood House, Old Broad St., London.

By order of the Board of Managers. JOSEPH S. HARRIS.

OFFICE OF THE No. 7 Wall Street, New-York. Philadelphia and Reading Railroad Company,

> To the Stockholders of the Philadelphia and Reading Railroad

The stockholders of the Philadelphia and Reading Railroad Company are requested to call at the office of the company, and present their certificates to be stamped with the word "assented," and to affix their signatures to an agreement to transfer their certificates of stock to five Trustees, to be held by them for the term of seven years, is made one of the conditions of a plan submitted by the Board of Managers for the readjustment of the affairs of the Philadelphia and Reading Raifroad Company and the Philadelphia and Reading Coal and Iton Company, and the funding of the floating and other fodebtedness now in

the proposed agreement to be signed by the stock-ders, can be obtained at the offices of the company,

CENTRAL RAIL, ROAD CO. OF NEW-JERSEY,
